WRITERS BOOT CAMP

The Writers Boot Camp is a fun and effective way to improve your writing skills and master the writing process.

TheSecretToWriting.com's Writers Boot Camp is an intensive writing program, designed to develop fundamental writing skills and to increase the confidence level of students as writers.

During the Writers Boot Camp, students explore and apply TheSecretToWriting.com's 10-step writing process. Students also work to communicate their ideas in the form of short essays, particularly writing in a way to ensure that each sentence in their written work is both grammatically correct and clearly stated.

With TheSecretToWriting.com's Writers Boot Camp, students benefit by earning better grades in school and reducing the stress that often comes with having to write school papers. Moreover, students gain a mastery of the writing process, a valuable skill-set, that stands to serve each student for a lifetime.

Why the Writers Boot Camp?

- In *The Nation's Report Card: Writing 2011*, the U.S. Department of Education reports that only 24% of U.S. students in 8th and 12th grades have writing skills at the *Proficient* level.
- According to a Geiser & Studley study, writing is a core skill required in high school and college classes ranging from language arts to the sciences. A student's ability to write and, in particular, to compose an extended text, is one of the best predictors of success in course work during the first year of college.
- Writing is a valued skill in the workplace. Most professionals spend more than 50% of their time communicating in some fashion, such as through emails, written presentations, speeches, or memorandums.
- Writing communicates your thought processes, professionalism, and credibility. Your ability to communicate effectively and clearly in writing is critical to your success in middle school, high school, college, and the workplace.

"In only one day, I felt more comfortable about writing essays than I ever have."
